A BIT OF HEAVEN IN '47

By PAUL D. EMMONS

Well, the date of this writing is Sunday, October 5th, and in line with that good old saying "the better the day the better the deed" dem Bums have evened the World Series.

The guys who are running it probably aren't sorry. It will put a good big wad of extra mazuma into the kitty.

This time it wasn't Casey at the bat, but Casey at the batter. And the batter popped into a put-out, which is a somewhat better record than that achieved by the mighty Casey of old.

Incidentally the Bums seemed to be weak in their pitching staff and that was also the trouble with the Red Sox this season. Perhaps their new manager can correct it. Anyway, he'd better get busy on it.

Wonder if the Russians went to the World's Series. Unless they got on the wrong end of the betting odds it might have mellowed even Vishinsky up.

Meanwhile the war with Russia is on. So far it is only in its initial psychological stages. Whether it ever becomes a shooting war time alone will tell.

Drew Pearson predicts that it won't become a shooting war for at least three years, but anybody could predict that.

The present "phoney war" also has its economic and political sidelights. Two recent events have been rather outstanding in that respect.

One has been the announcement just made by Russia's official organ in Moscow that communists all over the world have been alerted in one unified block to combat American "imperialism."

That means that our potential enemies are actively organized, while the best elements of American society are not. For they never are until it's almost too late to do anything effectual. Easy going American "imperialists" never do organize for war. Russia to the contrary not with standing.

Our principal war effort recently has been a gesture of good will out the Russians will probably call it "war mongering." We have renounced our share of the Italian battle fleet given to us under the terms of the peace treaty with Italy.

This was a wise move on our part. It cost us nothing, for one thing won't take anything out of the American fax payers' pocket.

The ships were too old to be of much use, American ammunition wouldn't fit their guns, and they have got to be scrapped anyway. So we're not losing much of anything from a military standpoint.

On the other hand, the gesture of good will has been of great assistance to the non-Communist government in Italy. It has tided the Gasperi government over rather a severe crisis.

But it may have interesting repercussions. There is talk now that we are going to time our wheat shipments to France so as to tide the Ramadier government over impending crises.

Not a bad idea, but two can play at that game. For the report is that Russia is going to do the same thing.

So the desolate democracies of Western Europe may be sitting pretty after all, waiting to see who will send them bigger and better wheat shipments.

Instead of the battle of the bulets we may be going to have the battle of the wheat fields.

Even there Russia may have the bulge on us—if she's only inclinded to loosen up. That may be one way of testing her so-called "democracy."

SCHOOL NOW OWNER OF MOVIE MACHINE

J. Turner Hood, Jr., principal of the high school, announces that moving picture camera and projector is owned by the school and has been purchased by the pupils from funds derived from the sale of magazines. The children have raised the amount of $1000 and no money has been used from any town fund to purchase the equipment. Moving pictures were taken of the recent game between Wilmington and Burlington by Frank Darling and Edward Swenson under the direction of Norton Prentiss of Reading. The pictures will be used by Coach Anthony Detesio.

Civic Ass'n In Meeting

A meeting of the Baldwin Civic Association was held, Tuesday evening, October 7th in the South School on Chestnut st.

Guest speakers were present from the board of selectmen and school committee. They spoke on the plans for erecting a new school house.

Regulars Relax at Takeshima

Regular Army soldiers on occupation duty in Japan enjoy recreation periods in rest centers like this, the Takeshima, at Gamagori. The vacationers in the picture are Sgt. Ralph Soderquist, of Pittsburgh, and Pfc Norbert Freczek, of Detroit. Armed with cameras, they are ready to record their memories of a thrilling tour of duty in the Orient.

Jefferson Is Elected State Sr. Councillor

The Mass. DeMolay Chapters held their annual State DeMolay Conclave at Beverly, Mass., Saturday, Oct. 4th. The business of the conclave was to elect new State officers.

Middlesex Chapter, Order of DeMolay, is proud to announce that Milton T. Jefferson, of 175 Lowell st., Reading, who is a past master councillor of Middlesex chapter, and who is past State Senior Deacon, was elected as State Senior Councillor for the ensuing year by a unanimous vote.

FUNERAL RITES HELD FOR MRS. BLOOMFIELD

Funeral services were held last Saturday for Mrs. Nettie Bloomfield, wife of the late Rev. George J. Bloomfield, at the Riverside R.I. Congregational Church, where Mr. Bloomfield served as pastor after leaving Wilmington. Many folks from Wilmington attended the funeral. Mrs. Bloomfield is survived by a son, Elliot, a daughter, Mrs. Glibert Barker, and a granddaughter.

PLAN TESTIMONIAL TO HENRY J. AINSWORTH

Plans are nearing completion to tender Harry J. Ainsworth a testimonial.

Mr. Ainsworth, chief of the police department for many years, has been appointed a probation officer for the fourth district court in Woburn.

The committee in charge of arrangements are, Timothy Cunningham, chairman; Gardner Ritchie, John Cuneo, Frank Adams, Thomas Johnston and Herbert Boutwell of the police associates.

Light Where It's Needed

Daylight with privacy is a dividend gained in modernizing this 10-year-old kitchen. Before the remodeling, windows over the sink had to be shaded to prevent outsiders from seeing into the house. Replaced with glass block, the entire area brings in daylight. This panel requires no curtains or shades because the block is not transparent.

Tads and Fancies

A comforting companion for shorts, slacks or skirts is a two-toned green and white wool Francis Sider designed sweater. This lovely young radio actress wears hers with green velvet shorts when relaxing.

Penny Sale Tonight

The Aids to Victory will sponsor a penny sale tonight in the Betterment hall. Members are asked to donate prizes and if they are not planning to attend they are asked to make their donations to any member of the committee, which includes Mrs. Wilfred Babine, chairman, Mrs. Arthur Dominicis, Mrs. Charles Buck, Mrs. Clarence Peters, Mrs. John Hartwell, Mrs. Clarence Doucette, Mrs. Ralph Biggar, Roseanna Babine, Mrs. Thomas O'Connors, Mrs. Sanley Cady, Mrs. John W. Babine, Mrs. David Martin and Mrs. William Taylor.

Miss Porter Is Married

A lovely wedding took place Sunday, when Miss Cynthia M. Porter, daughter of Mr. and Mrs. Simon M. Porter of 3 Coolidge rd., Woburn, formerly of Wilmington, became the bride of Edmund M. Galantet son of Mr. and Mrs. Edmund Galante of Main st., No. Woburn at a 4 o'clock ceremony at St. Anthony's church by Rev. John Pendergast.

A reception followed the ceremony at the Blue Terrace in Wil-

The sun can shine on stadium and gridiron or players can battle through drizzle and mud as huddled spectators watch, but in either event Bill Brundige is on hand to report interful aspects of Army's Saturday afternoon football contests over MBS this fall as he accompanies Ted Husing, who's bringing listeners speed-timed play-by-play descriptions of the frays.

Seeking Extension On Police Chief Tenure

At the meeting of the board of selectmen held in the town hall Monday evening, a letter was sent to the civil service commission asking for an extension to April 1, 1948, for Francis Hoban as acting chief of the police department.

Letters also were sent to the Middlesex county retirement system for authorization to have Accountant Harry R. Deming serve as the town accountant until June 30, 1948; to authorize Chief Winfred W. Rice to serve as chief of the fire department until June 30, 1948. Both men have reached the age of retirement and the board has requested that the men serve in their respective positions up to June of next year.

A letter was sent to the civil service commission requesting that John Imbimbo be appointed as a permanent police officer with full pay, also, that Calvin Drew be employed as permanent intermediate police officer of the department.

Mr. and Mrs. Ernest C. MacDougall of Middlesex ave., are vacationing for the month of Oct. in Canada.

Theresa Hutchins Is Bride In Colorful Fall Wedding Ceremony

Miss Theresa Frances Hutchings, daughter of Mr. and Mrs. Alfred Hutchings of Hobson ave., and Leonard Raymond Denault, son of Noah F. Denault of Dunstable, were united in marriage at a 4 o'clock ceremony performed Sunday, Oct. 5th in the rectory of St. Thomas' church. Rev. Francis McInerney performed the ceremony. The bride had as her only attendant, her sister, Miss Margaret Eleanor Hutchings, while Albert Carron friend of the bridegroom served as best man. A white satin gown with lace panel inset with matching lace crown headpiece with full length veil was worn by the bride. She carried a bouquet of calla lillies. Her bridesmaid wore a gown of orchid satin with white lace yoke, with matching natural chrysanthemum headpiece. She carried an arm bouquet of varied colored chrysanthemums.

A reception followed in the Silver Lake Betterment hall, which was decorated with white streamers and wedding bells. The bride is a graduate of Wilmington high school, class of '44 and Simmons college. The bridegroom was educated in Hollis, N. H., and is employed as a machinist. He is a veteran of World War II, having served in the US Coast Guard with service in the Pacific area. After a wedding trip to N. H. and Canada, the couple will reside in Hollis.

Backyard Gardener

While we're thinking of Fall clean-up in the garden and a bit about storage of vegetables, we might well keep in mind next year's garden.

What I am thinking of is that I noted that most every plant of my late cabbage had club root. I can't recall ever having it before in the garden and can't imagine how it came to be my crop. I've always had a good rotation and can't imagine as I recalled that the garden authorities always said no. Practically the only sign even of the small garden in which to cut down on plant diseases.

Data that is used in making a rough plan of my garden layout to remind me next year of the planting distances and rows and where I planted tomatoes and so on.

Cleaning up the garden is really a mighty important point in disease and pest control. Raking is the way it runs. I picked this down to a few paragraphs, this information up from Orva Boyd, is the plant pathologist up at the University of Massachusetts here in Amherst.

Disposal of weeds and old crop refuse in the garden by composting, by plowing the garden in the Fall, or by gathering and burning all of the refuse.

The cans are just one or two angles that should be kept in mind in reference to these three methods. First, if you're going to compost it, make sure that the compost pile is kept wet so that it will heat and thus kill the pests.

When it comes to plowing we should remember that Fall plowing really destroys many pests by exposure to cold. In other words, the same thing applies as with compost. When the refuse is turned under, it decays and the pests die. Furthermore many insects which have gone into the soil to hibernate are brought to the surface and are killed by the weather. In other words, vegetable insects and disease organisms are far less likely to survive the winter of the refuse is plowed under instead of being left on the surface of the ground.

Gathering and burning the refuse may be the easiest method, but it's the least desirable. What

A VOTE OF CONFIDENCE IN BOSTON'S FUTURE

Boston Edison Company's New Generating Unit to be Largest in New England

Boston Edison Company is casting a vote of confidence in the future of Greater Boston by investing its capital in a giant 81,250-kilowatt turbo-generator which, according to present plans, will be ready for operation in 1949.

This new unit will incorporate every modern development designed to reduce the amount of fuel used per kilowatt-hour of electricity generated. The turbine will be the largest in New England. It will be served by the largest boiler, operated at higher pressures than any heretofore installed in New England. The inclusion of a re-heat cycle in this installation, together with other features, will make the unit even more efficient than Boston Edison's new Mystic Station, now rated as one of the most efficient in the country.

The improved fuel economy in the generation of electricity has been an important factor in enabling electric utilities up to now to give to the general public a downward trend in prices charged their customers in spite of the increased cost of almost all the elements entering into the production, transmission and distribution of electricity.

Fifth Major Increase in Ten Years

The new 81,250-kilowatt unit, together with a third 50,000-kilowatt [illegible] which will go into operation in 1947 at Mystic [illegible] will be the fifth major power-producing facilities by more than [illegible] in a ten-year period, and a 250,000-kilowatt increase in capacity—65 per cent—within the decade, 1940-1950.

Confidence In Future

Boston Edison thus renews its confidence in the future of the communities which the Company serves. For a century and a half Boston has been a leader in the industrial, commercial and cultural life of our Republic. It will continue to hold that leadership. And the electric service company on which the community relies will continue its policy of furnishing an adequate supply at the lowest possible cost.

Industrial Development

Metropolitan Boston and Massachusetts are in splendid condition to play their full part in the industrial development of the post-war era. The natural advantages of invigorating climate, superb harbors, and nearness to great markets will be supplemented by improved transportation, modern airports and, to a greater degree than ever before, the skill and ingenuity of the world's finest craftsmen. Boston Edison's New Business Department is prepared to furnish detailed information on business opportunities which await development in the realm of American industry.

KAISER OUTPUT SOARS

WILLOW RUN, Mich. — Steadily climbing toward its goal of 200 to 2000 cars a day, Kaiser-Frazer Corp. produced 16,533 automobiles in September and highlighted the month by shipping a 100,000th automobile.

The 16,533 September record, according to Edgar F. Kaiser vice president and general manager, was 26 per cent increase over August's total of 12,975. The October schedule is set at 18,000 units.

K-F's production for the year so far totals 81,825. This places the Willow Run firm ahead of all their independents and several divisions of the "Big Three" in passenger car production for the first three quarters of 1947.

In a recent talk with employees, Henry J. Kaiser, board chairman said that 1947 is just a stepping stone to manufacturing bigger in 1948. "Willow Run within the coming year will be producing from 1500 to 2000 cars a day, and allowing that, assembly plants will spring up here and there throughout the United States," he said.

"The opportunity is unlimited. As we said in the infancy that coal is to build a business that will never know completion and in the building of that business, to understand that it is only as strong as the faith and confidence of its people."

"As the years roll by and the cars roll out, the bond between us will grow stronger and between us and the host of organizations will top us."

"Admittedly, the shortage of steel has been the only obstacle in the way of delivering more so far this year," said Edgar Kaiser. "To help offset this shortage we have purchased a steel rolling mill in Indianapolis that we are taking over immediately. It is our aim to increase the output of this mill to its very limit to turn out steel for the Kaiser and Frazer automobiles."

The Circle 4 of the WSCS met Wednesday afternoon at the home of Mrs. M. C. Mussolo, 106 Burlington ave.

A dessert luncheon was served and there to the members.

AVOID THAT
"5 o'clock shadow"

Why give yourself "headlight headache"? Or wear yourself out twice-a-day inching along through rush-hour traffic . . . and having to beg your way into a crowded, costly parking lot? It just isn't worth it, anyway you look at it!

Take the dependable, comfortable B and M to and from work. Leave the family car at home for your wife to enjoy. Commute the easy way . . . the thrifty way . . . the safe way!

take the train!

Most accidents happen at dusk . . . "5 o'clock shadow" time. —Mass. Dept. of Motor Vehicles.

People themselves are often the greatest people, according to Lew Lehr (lower left). Morey Amsterdam (lower right) and Ed Tinney (upper right), all top flight comedians in their own right, a modest statement of fact with which Hugh Bauer (upper left), veteran radio producer, is often inclined to agree as he attempts by tape recorder to enable control the new "Stop the Music" and "Take It or Leave It" programs heard over Mutual Saturday nights.

"Best Buick Yet"
SALES Buick SERVICE
LUBRICATION IS A JOB WE DO Better...
No one knows your Buick like we do. We have Buick "know-how." We follow Factory Lubrication Instructions. We use the right lubricants.
WHEELS AND BEARINGS should be examined and bearings lubricated every 10,000 miles, should bearings be neglected the repair expense could be sizeable.
CHASSIS and body lubrication calls for an expert with a Buick lube chart to follow to be sure he gets every place that's recommended.
ENGINE lubrication comes from fresh, new oil that is changed every 1000 miles for longer life to the whole engine.
TIGHTENING TOO — while we're all over the car doing a thorough lubrication job, it is wise to let us do a good tightening at the same time. The whole car runs better, and safer and rides better

MASSACHUSETTS STATE PLANNING BOARD DO YOU KNOW THAT . . . New building permits were issued for 2,394 dwellings during July and August this year in the 63 Massachusetts cities and town reported by the Dept of Labor and Industries. This was nearly two-thirds as many as in the whole preceding half-year. . . . Fifteen places showing the largest number of new homes started during the two months in proportion to their population were: Watertown, Westwood, West Springfield, Natick, Barnstable, Lexington, Needham, Reading, Peabody, Framingham, Marblehead, Newburyport, Winchester, Saugus and Leominster, in the order named.

U. S. Treasury reports that up to June 30, 1947, sales of Series E savings bonds in Massachusetts totalled $1,542,000 and of F and G bonds $958,000,000. Redemptions of all series of bonds from A through K totaled $418,000,000 between October 1941 and June 30, 1947. . . . There are 28 radio broadcasting stations in Massachusetts, of which seven are F.M. . . . Massachusetts' employment tax in 1947 fiscal year yielded $28,084,000 with 3,830,000 collected in interest in the reserve fund benefits paid in the same period totaled $48,925,000, showing a net deficit of $17,011,000. . . . Current unemployment compensation payments are running a little over a million dollars a week. . . . The town of Boylston at a recent special town meeting adopted a zoning bylaw for the protection of the community.

Years of Service

ART JEWELRY CO.

440 Main St. Telephone 0920 Woburn, Mass.

CHOICE—is the keynote of today's enlistment opportunities in the Regular Army. If you've had prior service in any of the Armed Forces and sign up for at least 3 years you have not just two, but *three* choices of location open to you!

You may sign up for a job in Europe. Or, if you prefer, you may enlist with the understanding that you may stay in the U. S. A. within your own Army area for at least a year. Or, whether you're a veteran or not, you may choose assignment to one of the five famous combat divisions in Japan or Korea!

Never has the Army been able to help its men to chart their careers with such certainty. Never has *any* army given individuals such a free hand in the plotting of their destinies.

Qualified young men *with* or *without* prior service who enlist in the Army for at least 3 years can choose their branch of service from those still open.

Any qualified man with prior service who wants to enlist in the Air Force can be assured of an initial assignment to a specific Air Base (if there is a vacancy) either by applying in person or writing to that Air Base.

No wonder so many of America's finest are signing up every day. They know where they're going, they know the many opportunities open to them, they know that the high pay, valuable education, generous retirement benefits and excellent food, lodging and medical and dental care will keep worry from the door. How about *you?* Officers at your nearest Army and Air Force Recruiting Station can tell you if you qualify.
